1. When camping, please observe the MINIMUM IMPACT CAMPING CODE detailed on the reverse side of your Gluepot paper map.

2. No pets or firearms are permitted on the Reserve and wood fires are not permitted under any circumstances.

3. Swimming in the dams is not permitted. Many dams contain hidden hazards (wire, droppers etc) and some have several feet of sludge in their base.

4. Please observe the Reserve speed limit at all times – 40 kph in this area can also be found elsewhere in the Reserve.

5. FERAL CONTROL PROGRAM aimed at reducing goat and fox numbers. Please do not enter areas signed "FERAL CONTROL".

6. To enable you to find your way around the Reserve – and for safety reasons – a TRACK NUMBERING system has been devised. The map above indicates the track numbers. Numbers are placed approximately 2 km apart on the Homestead area to reduce the dust hazard.

7. To avoid disturbing the wildlife the Homestead area is signed as an "ANIMAL FREE ZONE". Visitors are asked to respect the management objective and refrain from entering this area.

8. All dams and tanks on the Reserve have been signed, and in addition, have a number plate that identifies the site grid position relevant to the grid on your paper map.

9. It is very easy to become disorientated and lost in mallee scrub. It is strongly recommended that if you intend walking out of sight of your vehicle, take note of the position of the sun relevant to the direction you intend walking.

10. In the event of an accident etc. the Reserve maintains a restricted access area. Should you become lost, find a track number, and keeping the numbers on your paper map. Every species of bird that occurs in this area can also be found elsewhere in the Reserve.

The following information is provided to help you enjoy your stay on Gluepot.

1. Swimming in the dams is not permitted. Many dams contain hidden hazards (wire, droppers etc) and some have several feet of sludge in their base.

2. No pets or firearms are permitted on the Reserve and wood fires are not permitted under any circumstances.

3. The following information is provided to help you enjoy your stay on Gluepot.

4. All dams and tanks on the Reserve have been signed, and in addition, have a number plate that identifies the site grid position relevant to the grid on your paper map.

5. It is very easy to become disorientated and lost in mallee scrub. It is strongly recommended that if you intend walking out of sight of your vehicle, take note of the position of the sun relevant to the direction you intend walking.

6. The Reserve conducts an ongoing FERAL CONTROL PROGRAM aimed at reducing goat and fox numbers. Please do not enter areas signed "FERAL CONTROL".

7. To enable you to find your way around the Reserve – and for safety reasons – a TRACK NUMBERING system has been devised. The map above indicates the track numbers. Numbers are placed approximately 2 km apart on the Homestead area to reduce the dust hazard.

8. Please do not drive your vehicle after heavy or prolonged rain as tracks can become very slippery and dangerous.

9. If you intend walking out of sight of your vehicle, take note of the position of the sun relevant to the direction you intend walking.

10. In the event of an accident etc. the Reserve maintains an RF, VHF and UHF radio systems. Rangers may be contacted on the frequencies indicated on the sign in the Visitor Centre. Please note that the Ranger may not be at the Homestead or near the vehicle when you call and evening is the best time to ensure contact or at 9:00 am or 3:00 pm, when weather readings are taken.
