

## Travelling to Gluepot Reserve

1. From Adelaide, travel to Gluepot via:
  - a. Blanchetown to Waikerie. Then take the ferry across the River Murray, and travel approx 10km to reach the Morgan – Renmark highway intersection. Turn left & travel 3.5km to the Gluepot turnoff at Lunn Rd. The turnoff is sign-posted. A Christadelphian Hall is located on the corner at the turnoff.  
  
or
  - b. Morgan to Gluepot turnoff at Lunn Rd, 30km from Morgan. The turnoff is sign-posted. A Christadelphian Hall is located on the corner at the turnoff.
  
2. The 48km of dirt road from the turnoff to Gluepot Visitor Centre is suitable for most types of vehicle. Sections of the road will become slippery after rain and the road may be closed by the Rangers if enough rain has fallen to make the road unsafe for travel. If the road is closed it will be stated on the Gluepot sign observable on the left hand side just after passing the Christadelphian Hall. The road initially passes by a pig farm on the left hand side and then through several cattle paddocks. This section of the road can be rough. The road also passes through 6 gates, the first of which is usually open and the next 4 usually closed. Occasionally farm workers may leave one or more of the closed gates open if they are working in the area. Leave the gates as found on arrival. Never leave a closed gate open after passing through.
  
3. In detail, from the turnoff at Lunn Rd. Helpful to set a trip odometer to 0.0

Trip odometer	Location	Images
0.0km	Sign-posted Lunn Rd turnoff to Gluepot from highway. Glenlock Christadelphian Church on corner. (signs should all be pointing in same direction, north)	
1.5km	Pass through gate that is usually open. Then pass a piggery on l.h.s	
2.0km	Gate that is usually closed. It has signs on it warning about trespassing and use of security cameras. Gluepot visitors have permitted access to continue past the gate, as sign-posted on the gate.	
3.0km	Pass cattle watering point. Take care if cattle nearby	

4.0km	Gate that is usually closed		
5.4km	Pass another cattle watering point.		
6.6km	Gate that is usually closed. Overhead powerline just before gate. 'Gluepot' sign on l.h.s approx 30m after the gate. The road veers to the left.		
16.6km	Gate that is usually closed. This is the entrance to Taylorville Station, a conservation reserve. There is a 'Gluepot 32km' sign on the gate. The road veers to the left (west)		
17.8km	Road reaches a fork near a corner. Take the sign-posted 'Kent Track' to the right There is a 'Gluepot' sign on the l.h.s as you travel around the bend		
37.0km	Gluepot entrance. Pass through the open gate. Gluepot sign on l.h.s		

<p>40.6km</p>	<p>Pass sign-posted water tank, 'Emu Tank' on l.h.s. Take 'track 1' a sweeping corner to the right.</p> <p>'Emu' bird hide on the lhs approx 200m off the road, as you go around the bend.</p>	
<p>48.5km</p>	<p>Gluepot Visitor Centre. There are self-registration facilities in the Visitor Centre. Copies of the Gluepot Reserve map are available. The Homestead is approx 400m north of the Visitor Centre.</p>	
<p>Gluepot has 3 campgrounds – Babbler, Bellbird &amp; Sitella. They are marked on the map. Babbler is the closest to the Visitor Centre, being approx 4km to the east</p>
