The main aim of the working bee this year will be to upgrade/replace 2 amenities (long drop toilets). We are also looking to assemble and install picnic tables for the shelters that were erected last year. Following excellent rains & improved season conditions in 2022, you can help to survey and monitor bird, bat, reptile and small mammal populations on Gluepot. Other activities that you can be involved in include upgrades to the electric fence and complete the Education Centre kitchen upgrade.
